Components description

Warning: Slide the rotary blade head to the far left or right to place in locked position in order to protect the internal mechanism of rotary blade

Model/Specifications	13060	13061
Cutting Length (mm)	390	500
Cutting Height (mm)	3.0	3.0
Format Index	A6-A4	A6-A3
Table Size (WxD)(mm)	310x446	312x556
Dimensions (WxDxH)(mm)	352x632x172	352x740x172

How to use it

1. Put the stack of paper under the clamp bar and adjust the paper guide to the proper position. Can be removed for larger applications.

2. Press and slide rotary blade head to cut the stack of paper.

3. Push in and rotate the handle to cut 20 to 30 sheets of copy paper easily.

Installation of hand wheel

- 1. Take out the handle, spring and screw driver provided in the box.
- 2. Put the spring on the axle of rotary blade head in advance and put the handle on the axle to hold the spring. And then fasten the screw tightly. Please refer to the photo below:

How to replace rotary blade head

Loosen the two screws from any side of plastic panel which holds the aluminum

Carefully remove the old rotary blade head from the aluminum bar.

Carefully slide the new rotary blade head onto the aluminum bar and make sure that the blade goes along with the rail properly.

Fasten the two screws to hold the aluminum rail tightly.

Care and Maintenance

CAUTION: To avoid damaging the product, never immerse the product in water or other liquids.

Do not use abrasive cleaners on the product. Dust with a soft cloth using extreme caution around the blade.
